# Orders

Our customer experience team is available Monday-Friday, 8:00AM - 5:00PM (AEST).

The Order Desk is closed on national public holidays.

We can now process your payment via our Credit Card facilities.

Please contact your local Sales Manager or Cryer Malt Accounts if you wish to pay your invoice by Credit Card.

From the 30th April 2021, Cryer Malt will no longer be accepting back orders.

### **CONTACT US**

For Australia call 1800 119 622 or email us at orders@cryermalt.com.au.

All other enquiries please email your local Sales Manager.

### DELIVERIES

All orders for next-day metropolitan deliveries in Melbourne, Brisbane and Perth must be received before 12pm local time. For a next-day delivery to metropolitan Sydney, your order(s) must be received by 11AM.For all interstate and regional deliveries we will endeavour for these to be delivered as soon as possible, please understand that delivery times will vary dependent on your location

### WHERE WE SUPPLY

- Australia
- New Zealand •
- Asia
- Pacific Islands

### WAREHOUSE LOCATIONS

- Melbourne
- Brisbane
- Perth •
- Auckland
- Christchurch

### FREIGHT PROGRAMS & DETAILS

The following items need to be requested at the time of order and may have an extra charge:

- Tailgate Delivery.
- Ute Deliverv. •
- Hand unload. •
- Other carrier-imposed fees may apply, including, but not limited to, call ahead, delivery window guarantees, residential delivery, re-delivery fees.
- If you have a Chep account but fail to exchange the pallet you may incur a \$55 fee per pallet.
- If you do not hold a Chep account and require a plain pallet delivery, you may be subject to a \$40 fee per • pallet.

### PRICING

All prices are all ex warehouse. Malt products are available in whole kernel form.

PLEASE NOTE: All prices are subject to change without notice. Please contact your local Sales Manager for our most up-to-date pricing.

### **PAYMENT TERMS**

A customer profile/credit application must be completed in order to set up an account and establish payment terms. Accounts are typically set up within three to five business days, upon receipt of the signed and completed credit application. Available terms include prepaid and 30 days from date of invoice. Failure to comply with the agreed-to terms of sale may result in delayed shipment of orders or even revocation of credit privileges.

### **CREDITS & RETURNS. RECEIVING SHIPMENTS. MALT STORAGE**

While we strive for quality from order to delivery, we know things may go wrong and we try our utmost to make it right. Before signing the shipment delivery paperwork, inspect each pallet and look for any sign of damage or loss.

If any problems arise:

- Please note any items that were shorted, broken or compromised on the delivery paperwork before signing.
- Take photos of the damaged pallets and products. •
- Email a copy to orders@cryermalt.com.au within 72 hours to report any issues. •
- Make sure all employees involved in unloading your shipment follow these procedures ٠
- Cryer Malt will investigate any claim outside 72 hours, however reserves the right to reject the claim.
- All requests to return 'unrequired' stock will be subject to 15% restocking fee & all freight charges are at the expense of the sender. The sender must provide the Cryer Malt CSR's with the product batch number(s), original Cryer Malt invoice number & photo's showing the condition of the product prior to transportation.

### MAINTAINING MALT QUALITY

All grain suppliers do their utmost to provide a product that is insect-free. However, once the product leaves their plant or warehouse, it is beyond their control.

We recommend the following preventative measures:

- Inspect your malt-storage area at regularly scheduled intervals. This is of particular importance when the room's temperature is above 18°C.
- Malt should be stored in a clean, cool and dry area off the ground and away from walls.
- To reduce the likelihood of pest activity, you may choose to fumigate your storage area periodically.
- For best results, we recommend using all whole kernel malts within 6 months of receipt.

### **RECEIVING BULK MALT**

To ensure the best quality of malt, we suggest the following:

- Ask the driver for documentation of the trailer pre-load cleanout.
- Inspect the condition of the malt trailer before unloading. ٠
- Insist upon a slow and steady load-out of malt into the silo.
- The delivery paperwork should not be signed until your malt is fully unloaded and inspected. •
- Any problems should be noted on the weighbridge docket. ٠
- If you have any questions at the time of unload, do not hesitate to contact us. The driver must wait if you • have any concerns.

# **Bulk Deliveries**

### **BULK MALT BAGS**

Our forte is custom-sized bulk bags (whether it is 300kg or 1000kg) so we can cater to breweries of all sizes. Our size increments go up in 25kg bags and all bags are pinpoint to the kilo, with no second guessing or weighing apparatus required.

With warehouses located all over Australia, every brewer has access to our malts in bulk bags. We also offer malt blending options, for those who want to avoid handling 25kg bags all together. We can blend any combination of our malts into one bulk bag.

### **BULK SILO**

Cryer Malt offers two delivery options for bulk malt – either via bulk truck into an auger, or a blower truck which pneumatically blows malt into the silo.

Whether it is a soft shell 10MT silo through to a 40-50MT fully fledged stand-alone silo, we have a wealth of experience in delivering bulk malt to brewing operation across Australia and work with the best providers to ensure the very best bulk delivery service.

### **BULK GUIDELINES**

Cryer Malt & Barrett Burston Malting are committed to providing and maintaining a high standard of service to our customers.

In order to support you with quality Bulk service & product, we have re-defined our service terms. We understand that unforeseen events can affect your Supply chain from time to time. It's our promise to support you in finding the most suitable outcome for all parties.

• Purchase Orders & delivery expectations must be received a minimum of 5 business days prior to your expected arrival dates. These are to be sent to BBM Distribution bbm\_distribution@bbmalt.com.au

• Delivery schedule changes require a 72 Hour notice period. These times allow for appropriate scheduling to occur for tipper truck or blower truck availability within driver CoR regulations.

• Unloading hours vary. Timeslot requests are not guaranteed. Whilst we aim to meet your timeslot requirements, we cannot guarantee delivery between your requested timeframes. Any re-delivery charges due to delivery rejection or inability to meet the requested timeslot will be onforwarded to the customer.

• Barrett Burston Malting/Cryer Malt must adhere to strict CoR (Chain of Responsibilities) guidelines and therefore do not offer a weekend delivery service.

• Loading time to match unloading date; further consultation with both parties the Barrett Burston Logistics and Customer for alignment when scheduling.

• Amenities for drivers must be available upon request. Please ensure a contact name & number is provided to the driver should they need access to Amenities such as; Bathrooms and drinking Water.

• Transport will liaise with the Seller to communicate delays due to breakdowns etc., the customer will be notified immediately along with any breakdowns at the brewery on receival which hold up transport should be notified to the Seller /BBM Logistics, Chris Smith immediately

• Last minute changes must be communicated by telephone immediately in the first instance & followed up with all parties in an email.

• Barrett Burston will on-forward any demurrage charges due to the delay of delivery whilst the vehicle is stationed on the customer premises.

• If the Silo capacity is reached prior to completion of the delivery, the customer is responsible for decanting the Malt into Bulker Bags. Detaining the vehicle to decant any leftover Malt content will result in Demurrage fees of \$135.00, payable by the customer. Barrett Burston will not accept return of any remaining Malt product from the vehicle. It is the customers responsibility to remove/decant any remaining product from the vehicle.

For any changes to your BBM bulk orders/PO's, breakdowns etc. Please contact Chris Smith and the BBM Logistics team directly at:

0409 778 818 / 03 9425 2391 or bbm\_distribution@bbmalt.com.au

All other enquiries, please contact your local Cryer Malt Sales Manager via the details on pages 8 and 9.

**Barrett Burston Malting** 

Malt

### DEXTER MALT IS A CARA PILS/DEXTRIN STYLE MALT THAT IS A POPULAR CHOICE FOR ENHANCING THE BODY, HEAD/FOAM RETENTION, AND MOUTHFEEL OF BEER.

PRODUCED IN THE TRADITIONAL EUROPEAN CARAMEL PILSNER PROCESS, BY STEEPING, PART GERMINATING AND THEN DRYING HIGH-QUALITY, LOW-PROTEIN BARLEY IN THE KILN.

DEXTER MALT IS PARTICULARLY EFFECTIVE AT INCREASING THE FOAM STABILITY OF BEER, MAKING IT A GREAT CHOICE FOR STYLES THAT REQUIRE A PERSISTENT HEAD, SUCH AS PILSNERS, LAGERS, AND BELGIAN ALES. IT ALSO ADDS A SMOOTH, FULL-BODIED MOUTHFEEL TO BEER, ENHANCING ITS OVERALL DRINKABILITY.

Colour °EBC: 2.5-6.5 Moisture (%): 5.0 max Protein: 9.0-12 Extract (%): 78 min.

ORIGINATING IN 1899 IN A LITTLE GERMAN TOWN CALLED KREIMBACH-KAULBACH, BESTMALZ® WAS FOUNDED ON HUMBLE ROOTS, STARTING AS A FLOUR MILL WHICH WAS TRANSFORMED INTO A MALTING UNIT AFTER ONLY FIVE YEARS.

NOW, BESTMALZ<sup>®</sup> IS A LEADER IN THE GERMAN MALTING COMMUNITY. WITH AN IMPRESSIVE INVENTORY OF MALTS, THEY HAVE BECOME RENOWNED AND APPRECIATED BY BREWERS FROM ALL AROUND THE WORLD.

# CO<sub>2</sub>HOP EXTRACT

YAKIMA CHIEF HOPS® CO2 HOP EXTRACT IS PRODUCED USING A SUPERCRITICAL CO2 PROCESS WHICH EXTRACTS THE SOFT RESINS AND ESSENTIAL OILS CONTAINED IN HOPS.

THEIR SINGLE VARIETAL EXTRACT IMPROVES SHELF LIFE, YIELD AND VERSATILITY, GIVING BEERS AND EXTRA BOOST OF HOP FLAVOURS. IT IS PRIMARILY USED AS A KETTLE INGREDIENT TO PROVIDE BITTERNESS. VARIETY SPECIFIC FLAVOUR/AROMA CONTRIBUTIONS CAN BE EXPECTED WHEN USED FOR LATE KETTLE OR WHIRLPOOL ADDITIONS.

BACK IN 2018 SIMON COOKE & RYAN CARVILLE TOOK A LEAP OF FAITH, TO GROW FRESH LIQUID YEAST CULTURES RIGHT HERE IN AOTEAROA NZ. AND WITH THAT... FROTH TECHNOLOGIES WAS BORN.

FROTH PRIDE THEMSELVES ON RAISING HIGH QUALITY, FRESH, LIQUID YEAST.

FROTH TECHNOLOGIES IS AN IMPACT BUSINESS THAT IS DRIVEN TO DO BUSINESS IN A WAY THAT MAKES THE WORLD A BETTER PLACE BY ENSURING OUR BUSINESS ACTIVITIES ACHIEVE SUCCESS ACROSS OUR THREE PILLARS: EARTHLINGS, ENVIRONMENT, AND ENTERPRISE.

WE'RE PASSIONATE ABOUT ALL THINGS FERMENTATION. OUR HIGHLY SKILLED TEAM OF CELLULAR FARMERS ARE LOVINGLY RAISING QUALITY LIQUID YEAST CULTURES IN OUR CUSTOM-BUILT YEAST LAB.

**AB Bliotek** 

### **LIQUID YEAST**

### **BUDDY | FT01** (AMERICAN ALE

Often playing a supporting role in IPA's and hop-forward styles, Buddy takes a back seat with its clean fermentation profile and lets it's mates bask in the limelight. With applications across a range of styles from Pale Ale's and IPA's, to American Style Stouts and Barleywines, this versatile and reliable strain is a go-to across the board. Brew with your Buddy; a brewer's best friend.

Attenuation: 72-80% | Flocculation: Medium | Alcohol Tolerance: 11% | Temp: 19-22°C Assumed Origin: Sierra Nevada

### VAPE FT02 (HAZY / ENGLISH ALE)

Clouds no longer belong solely to the sky. The trendy kid on the block, Vape is our answer to sick-as-hazies. Contributing a restrained but present ester profile and a silky mouthfeel, Vape clouds-out most when partnered with a high dose of hops and proteins to render the iuiciest of NEIPA's.

Attenuation: 71-75% | Flocculation: Medium | Alcohol Tolerance: 10% | Temp: 19-23°C Assumed Origin: Boddington's

### SPECTRA | FT03 (HAZY / ENGLISH ALE)

Explore the more delicate of textures and indulge in a spectrum of radiant flavour & aroma. Spectra boasts a more robust attenuation capacity than many of its counterparts, while exhibiting an elegant ester profile and velvety mouthfeel. This prolific strain dances with hops & protein to offer a mesmerising glow in New England IPA's, while its Old English origins make it a wise choice for amber & dark ales.

Attenuation: 75-82% | Flocculation: Low-Med |Alcohol Tolerance: 10% | Temp: 17-21°C Assumed origin: Unknown

### RUDEBOY | FT21 (HAZY / ENGLISH ALE)

Named by Dale Gould as a salute to the UK Ska music scene, Rudeboy is an English go-getter with versatility across a range of beer styles. This boy is highly flocculant and rather clean, with a neutral profile that nudges mild malt and soft fruit aromatics to the forefront. Rudeboy is a real all-rounder in the brewery: in juicy Hazies, bright Pale Ales, Low-Alcs, Darks, Milds & Bitters.

Attenuation: 68-72% | Flocculation: High | Alcohol Tolerance: 9% | Temp: 18-22°C Assumed origin: Young's Brewery

### **UNICORN** FT30 (WITBIER - SEASONAL)

Majestic, sparkly, and a little bit spicy; Unicorn is our answer for Belgian Wits, Blondes, and new age White IPA's. This unicorn's horn is made of phenols, shooting a rainbow of clove, spice, and bubblegum out its fluffy white head. High attenuation results in a dry beer with a perception of tartness. Take the rainbow reins and harness the magic that is the Unicorn.

Attenuation : 72-78% | Flocculation : Low-Med | Alcohol Tolerance : 10% | Temp: 18-24°C Assumed origin: Hoegaarden

### KRISP FT50 (GERMAN<sup>'</sup>LAGER)

The strain that says it all without really saying anything, Krisp is our classic old-world German lager strain. Offering a clean & steady fermentation, applicable for use in classic lagers and new age Pilsners, and happy as in a Cold IPA alike. Krisp delivers on its promise.

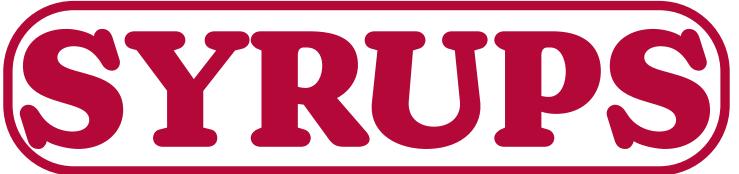

Attenuation: 73-79% | Flocculation: Medium | Alcohol Tolerance: 10% | Temp: 9-13°C Assumed origin: Weihenstephan

### VAGABOND FT51 (CZECH PILS)

This Vagabond may be a bottom dweller, but it sure cleans up nice. Medium attenuation allows for residual sweetness which can elevate nuanced malt and fruit tones on the nose. A bold, clean finish allows hops to shine through, artfully poised between the malt and dryness. A perfect strain for NZ & Bohemian Pilsners and Lagers.

Attenuation: 71-75% | Flocculation: Med-High |Alcohol Tolerance: 9% | Temp: 9-13°C Assumed origin: Budêjovický Budvar

WHILST IN THE PAST THEY HAVE BEEN CHIEFLY USED IN AUTHENTIC BELGIAN BEERS, DARK CANDI SYRUPS ARE BECOMING INCREASINGLY POPULAR FOR A MULTITUDE OF BEER STYLES.

MADE FROM AUTHENTIC BELGIUM CARAMELISED BEET SUGARS, THEY ARE EXTREMELY BENEFICIAL FOR IMPROVING THE GRAVITY OF YOUR WORT, INCREASING ALCOHOL AND DRYNESS WITHOUT ADDING TO THE SWEETNESS OF THE BEER.

### **CANDI SYRUPS**

### **Product Name** DARKCAMD 🐙 DARK 🐓

Package Size

### Dark Belgian Candi Syrup 20L Cannister

Original caramelised sugar of traditional Belgian ales. This syrup is deep red/black in colour. Its flavour is full of soft caramel, vanilla, plums and raisins.

SRM: 30 or 59 °EBC — Usage: 1.032 PPG — Extract: 78-80%

BELGIAN CANDI SYRUP

### Product Name

Package Size

### Dark 2 Belgian Candi Syrup 20L Cannister

This syrup's flavour is a mix of burnt sugar, figs, ripe fruit, toffee and dark chocolate. Highly fermentable.

SRM: 80 or 157 °EBC — Usage: 1.032 PPG — Extract: 78-80%

Product Name

Package Size

Amber Belgian Candi Syrup 20L Cannister

Made using the same process as the Dark Syrup. Lighter in colour with a less intense Candi Syrup flavour.

SRM: 40 — Usage: 1.032 PPG — Extract: 78-80%

### Product Name

Package Size

### Clear Belgian Candi Syrup 20L Cannister

Traditional, light-coloured Candi Syrup, cooked briefly to achieve higher fermentability and to invert sugar.

SRM: 0 — Usage: 1.032 PPG — Extract: 78-80%

ONECIRCLE PRODUCE KEYKEG FROM HEADQUARTERS IN THE NETHERLANDS AND SEVERAL OFFICES THROUGHOUT THE WORLD.

THEY ARE A DEDICATED, INNOVATIVE TEAM WHO NEVER GIVE UP ON OUR PASSION FOR KEGS, BEVERAGES, FRESHNESS AND SUSTAINABILITY.

### LIGHTWEIGHT • SUSTAINABLE • SAFE • EASY With Bag-in-Keg<sup>™</sup> and Double Wall<sup>™</sup> Technology.

WITH KEYKEG WE OFFER A COMPLETE RANGE OF BEVERAGE KEGS. KEYKEG PRODUCTS FEATURE AN ADVANCED DESIGN AND ARE EASY TO USE, SUSTAINABLE AND CIRCULAR.

KEYKEG PRESENTS GREAT OPPORTUNITIES TO BREAK INTO AND SERVE NEW MARKETS. LIGHTWEIGHT AND SUSTAINABLE, KEYKEG PROVIDE THE BEST POSSIBLE PROTECTION FOR YOUR BEVERAGES, WHICH CAN BE WDISPENSED USING ANY GAS, EVEN COMPRESSED AIR.

MAKE SURE YOUR BEVERAGES REACH CONSUMERS ALL OVER THE WORLD AS FRESH AS THE DAY THEY WERE PRODUCED.
